

Introduction to Tinkercad

Sun-Ting Lin 林尚亭

**Electronics and Photonics Post-undergraduate
Second Degree Program**

National Yang Ming Chiao Tung University

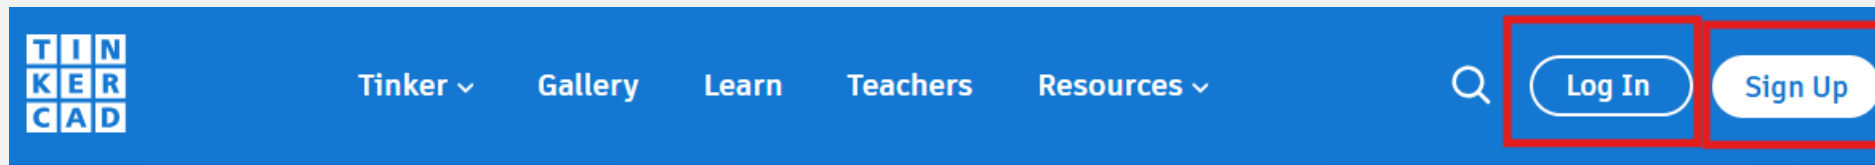

- Introduction

Tinkercad is a free web app for 3D design, electronics, and coding.

Introduction

- Component List (right side)

The screenshot displays the Tinkercad web interface. A red rectangle highlights the top-left toolbar containing icons for file operations and simulation. A blue rectangle highlights the central workspace where a breadboard circuit is being constructed, including an NMOS transistor, resistors, and a digital display. A yellow rectangle highlights the top-right toolbar with buttons for saving, starting simulation, and sending to code. A green rectangle highlights the right-hand panel, which contains a search bar and a list of electronic components such as resistors, LEDs, pushbuttons, and various batteries.
